

Company Interview Preparation Guide

Rounds, topics, questions and tips per company and role.

TCS

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Infosys

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Wipro

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Accenture

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Cognizant

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Capgemini

Data Scientist

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Data Analyst

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

ML Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Software Engineer

Interview rounds: Online Aptitude Test, Technical Interview, HR Interview

Aptitude topics: Quantitative Aptitude, Logical Reasoning, Verbal Ability, Basic Coding

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Clear the aptitude cutoff first., Revise one core language well., Be confident in HR.

Deloitte

Data Scientist

Interview rounds: Online Assessment, Group Case Study, Technical Interview, HR/Behavioral Interview

Aptitude topics: Quantitative Aptitude, Data Interpretation, Logical Reasoning, Case Analysis

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Practice case studies., Brush up data interpretation., Show business + tech balance.

Data Engineer

Interview rounds: Online Assessment, Group Case Study, Technical Interview, HR/Behavioral Interview

Aptitude topics: Quantitative Aptitude, Data Interpretation, Logical Reasoning, Case Analysis

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Practice case studies., Brush up data interpretation., Show business + tech balance.

Data Analyst

Interview rounds: Online Assessment, Group Case Study, Technical Interview, HR/Behavioral Interview

Aptitude topics: Quantitative Aptitude, Data Interpretation, Logical Reasoning, Case Analysis

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Practice case studies., Brush up data interpretation., Show business + tech balance.

ML Engineer

Interview rounds: Online Assessment, Group Case Study, Technical Interview, HR/Behavioral Interview

Aptitude topics: Quantitative Aptitude, Data Interpretation, Logical Reasoning, Case Analysis

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Practice case studies., Brush up data interpretation., Show business + tech balance.

Software Engineer

Interview rounds: Online Assessment, Group Case Study, Technical Interview, HR/Behavioral Interview

Aptitude topics: Quantitative Aptitude, Data Interpretation, Logical Reasoning, Case Analysis

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Practice case studies., Brush up data interpretation., Show business + tech balance.

Amazon

Data Scientist

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Analyst

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

ML Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Software Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Microsoft

Data Scientist

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Analyst

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

ML Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Software Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Google

Data Scientist

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Statistics, ML algorithms, Model evaluation, Python/Pandas, SQL queries

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Explain bias-variance tradeoff., How do you handle imbalanced data?, Difference between bagging and boosting?, How do you evaluate a classification model?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL & query optimization, ETL design, Spark, Data modeling, Cloud basics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Difference between OLTP and OLAP., How does partitioning improve query performance?, What is a star schema?, How would you design a batch ETL pipeline?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Data Analyst

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: SQL, Excel/Power BI, Descriptive statistics, Dashboarding, Business metrics

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Write a SQL query for the second highest salary., How do you handle missing values?, Difference between WHERE and HAVING?, How do you pick the right chart?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

ML Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: ML/DL fundamentals, Model deployment, MLOps, Docker/Kubernetes, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: How do you deploy a model as an API?, What is model drift and how to monitor it?, Explain CI/CD for ML., How do you scale model inference?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.

Software Engineer

Interview rounds: Online Coding Test, Technical Interview 1 (DSA), Technical Interview 2 (Design/Role), Bar-Raiser / Hiring Manager, HR Interview

Aptitude topics: Data Structures, Algorithms, Problem Solving, Time/Space Complexity

Technical topics: Data Structures, Algorithms, OOP, DBMS, OS & Networks, System design

HR questions: Tell me about yourself., Why this company?, Describe a challenging project., Where do you see yourself in 5 years?, How do you handle failure?

Technical questions: Reverse a linked list., Time complexity of quicksort., Design a URL shortener., Difference between process and thread?

Tips: Grind DSA (arrays, trees, graphs, DP)., Prepare 2-3 projects deeply., Practice system design, think out loud.
